

## Authentic Indian Experiences 2022

"Living in the Modern World produces a STATE of ALIENATION in which we cannot realize our REAL SELVES"

The REASON people TRAVEL is therefore to escape from the REAL WORLD in order to EXPERIENCE a different world, and to DISCOVER the AUTHENTIC

Authenticity is a key element in creating a visitor experience and has been defined as: '**an original, universal value and a crucial driving force motivating tourists to travel to distant places and experience different time periods**'

*Many travellers and surely all tourists are very much interested in finding things and phenomena at their destinations that are **authentic for that area**. This thereby happens to be one of the basic conditions of a holiday, because the tourist finds himself/herself in an area that is different from his/her home environment and s/he wants to experience things that are typical for that area.*
